

# GULF COAST PAINT MFG., INC.

## COLOR FLAKE FLOOR

### CM-15 / CT-332

Gulf Coast Paint's Color Flake Flooring system is excellent for garage floors, locker rooms, laboratories, etc. The CM-15 is used as a primer and base coat on the concrete floor. The topcoat is the CT-332 Polyester Polyurethane, which has outstanding abrasion and impact resistance that's desired in a floor coating. This system is designed as a high wear system for use in commercial, institutional or residential areas where a durable, seamless, low maintenance, decorative floor finish is desired.

#### *Benefits of Color Flake Floors*

- ❖ Easy to Clean
- ❖ Provides long term durability
- ❖ Can handle heavy traffic
- ❖ High Gloss Finish (Satin is available upon request)
- ❖ Slip resistant additive can be mixed in with CT-332 to provide slip resistance
