

GULF COAST PAINT MFG., INC.

PC-650 NON-SKID/ANTI-SLIP EPOXY

Applied with Flat Blade Squeegee

Typical Industrial uses include:

- Ramps
- Walkways and Stairs
- Platforms
- Loading Docks
- Ships and Work Boats
- Chemical Processing Plants
- Wet Process Areas
- Machine Shops
- Manufacturing Facilities
- Food Processing Areas
- Marinas

Depending on the application, you can use a squeegee or trowel to get a smoother, less aggressive profile. Rolling the product with a phenolic core roller will give you an aggressive finish.

PC-650 is a two component non-skid Epoxy Floor & Deck coating. PC-650 has an aggressive anti-slip profile that helps provide safer footing and traction on concrete and steel surfaces in interior and exterior environments. The product is designed for use in commercial, industrial and marine applications. **Also available in a low temp version able to cure down to 25°F.**

- Easy to apply, ready to use Anti Slip Coating
- Excellent adhesion, abrasion and impact resistance
- Can be applied with a roller, trowel or squeegee
- Meets ADA and OSHA requirements for safe co-efficient of friction when properly applied
- Resistant to grease, oil, salt water, alcohol, detergent, gasoline, hydraulic fluid
- Mil PRF 24667B product offset

Applied with Phenolic Core Roller

Protect your business, employees and customers

Slips, trips and falls are among the leading cause of injury in the workplace. When you add chemicals and water to the mix, it's just a matter of time until an injury occurs, according to the U.S. Department of Labor and OSHA.

- Slips, trips, and falls cause 15% of all accidental deaths, and are second only to motor vehicles as a cause of fatalities.
- In 2015, 800 deaths occurred due to slips, trips, and falls according to the Bureau of Labor Statistics.
