

# GULF COAST PAINT MFG., INC.

## POLY-CHEMCURE PC-116 RUST INHIBITIVE EPOXY PRIMER

### PRODUCT DESCRIPTION

PC-116 is a fast curing, extended recoat, high build, Polyamide Epoxy Rust Inhibitive Primer. PC-116 has a convenient 1:1 mixing ratio and is designed for use as a primer for Epoxy and Polyurethane topcoats. PC-116 can be used where an extended recoat period of up to 6 months is needed.

### CHEMICAL RESISTANCE

Excellent resistance against alkalis, salts, fresh or salt water and some acids and solvents when topcoated with appropriate topcoat.

### PRODUCT USES

Recommended for structural steel, tanks, vessels, equipment, pipe racks, fleets, etc., in chemical processing plants, pulp and paper mills, sewage and waste water treatment facilities, fertilizer plants, refineries, electric generating stations, coal handling sites and marine installations, etc.

### PRODUCT FEATURES

- Fast recoat times
- Excellent rust preventing properties
  - Minimum recoat time: 5-6 hours
- Outstanding adhesion and "wetting out" ability
  - Excellent resistance to "under cutting"
- Easily applied by conventional or airless spray
  - Good flexibility and abrasion resistance
  - Excellent film build to protect sharp edges
  - Extended recoat period of up to 6 months
  - Great shop coat primer for fabricators
