

GULF COAST PAINT MFG., INC.

CHEMICAL RESISTANT COATINGS FOR PULP AND PAPER

Our full line of high performance coatings provides the solutions to defend corrosion in these challenging environments. No matter if it's the wet end of a paper machine or a concrete floor in a control room, we have the answers to your problems.

PRODUCT LINE

- *Chemical Resistant Epoxies*
 - *Wet Surface Epoxies*
 - *Moisture Tolerant Coatings*
 - *UV Resistant Coatings*
- *Fast Drying and Low Temperature Curing Coatings*

PULP & PAPER MILLS

- Bleach Plants
- Pipe Lines & Pipe Racks (Debarkers or Chippers)
- Clarifiers
- Paper Machines (Wet & Dry end)
- Structural Steel – All Units & Tanks
- Digesters (Continuous or Batch)
- Fresh Water Treatment Plant
- Wood Yard (Debarkers or Chippers)
- Concrete Floors
- Concrete Buildings
- Vessels

GULF COAST PAINT MFG., INC.

CHEMICAL RESISTANT COATINGS FOR PULP AND PAPER

CM-15 High Solids Epoxy Mastic used on concrete and steel support beams.

PC-590 was applied to the Press Section on the wet end of a paper machine while the surface was still damp.

PC-1000 Epoxy Mortar used for resurfacing concrete in containment area.

PC-1850 100% Solids Epoxy used in a turbine room.
